**If that little voice in your head  
thinks it is important, then  
write it down!**

# BE QUICK

- Use symbols and abbreviations.
- Don't worry about mechanics.
- Write in phrases.
- Leave space to add more detail later.

**If you fall behind the speaker,  
you're writing too much.**

# QUESTION

- Always be thinking of questions.
- If you don't understand, ask.
- Write questions when you review.

**The only stupid question  
is the one you don't attempt  
to answer.**

# REVIEW

- ASAP!

- Write Questions & Summary.
- Underline/Highlight important stuff.

**Most forgetting happens  
in the first 24 hours.**

# SUMMARIZE

- Don't give a class play-by-play.

**If you can't explain what you learned, did you learn anything?**

# STUDY

- Read over notes.
- Recite aloud.
- Self-Test.
- Compare with other students.

**Waiting until the night before the test to study is a sure way to lower your grade.**
